

SAFETY DATA SHEET

SECTION 1 – IDENTIFICATION OF THE CHEMICAL PRODUCT AND COMPANY

Product Name: Kenso Agcare Vega 250 EC Fungicide
Product Type: Group C Fungicide
Company Name: Kenso Corporation (M) Sdn Bhd
Address: Unit 3C/ 59, Oxford Street, Bulimba Queensland 4171
Telephone Number: (07) 3217 9788
Facsimile Number: (07) 3217 9733
Emergency Telephone Number: 000 (Police or Fire Brigade)
13 11 26 (Poisons Information Centre)
Use: For the control of target spot of potatoes and tomatoes, leaf blight of carrots, leaf spot diseases of bananas and husk spot on Macadamias.

SECTION 2 – HAZARDS IDENTIFICATION

Hazard Classification: Classified as hazardous according to criteria of Safe Work Australia.
 Not classified as a Dangerous Good according to the ADG code

GHS Signal Word: DANGER

Hazard statements:

H227: Combustible liquid.
 H302: Harmful if swallowed.
 H304: May be fatal if swallowed and enters airways.
 H319: Causes serious eye irritation.
 H410: Very toxic to aquatic life with long lasting effects.

Prevention:

P210: Keep away from heat/sparks/open flames/hot surfaces — No smoking.
 P264: Wash contacted areas thoroughly after handling.
 P270: Do not eat, drink or smoke when using this product.
 P273: Avoid release to the environment.
 P280: Wear protective gloves, protective clothing and eye or face protection.

Response:

P330: Rinse mouth.
 P301 + P312: IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.
 P370 + P378: In case of fire: Use water fog, foam, dry agent (carbon dioxide, dry chemical powder) for extinction.
 P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
 P337 + P313: If eye irritation persists: Get medical advice/attention.

Storage:	P391: Collect spillage. P403 + P235: Store in a well-ventilated place. Keep cool.
Disposal:	P405: Store locked up. P501: Dispose of contents and containers as specified on the registered label.
SUSMP Classification:	S5
ADG Classification:	N/A
UN Number:	N/A

Emergency Overview

Physical Description & colour: Clear amber liquid
Odour: Non specific
Major Health Hazards: No major health hazard is known.

Potential Health Effects

Health Effects

Swallowed:	Harmful if swallowed.
Eye:	May irritate eyes.
Skin:	May irritate skin.
Inhalation:	May be harmful if inhaled.

Chronic:

Difenoconazole technical has been extensively tested on mammals and in test-tube systems. No evidence of mutagenic, teratogenic or reproductive effects was obtained. Chronic 2-year feeding studies revealed no compound-related tumourigenic effects in rats, whereas in mice high doses were associated with an increased incidence of liver tumours.

The absence of mutagenic effects and the pronounced restriction of tumour appearance to one organ and one species suggests an underlying promotion process which is frequently seen in mice and which is considered to have no bearing in humans.

Repeated high doses of difenoconazole technical were associated with cataracts in dogs and hens. Studies on other species and a subsequent dog study did not confirm this effect. Other effects at high doses included liver toxicity and adverse effects on blood cells and platelets.

The **aromatic petroleum hydrocarbon liquid** may cause central nervous system depression and narcosis.

SECTION 3 – COMPOSITION/INFORMATION ON INGREDIENTS

Ingredients	CAS number	Proportion
Difenoconazole	119446-68-3	25%w/v
Inert ingredients	secret	<15%w/v
Liquid hydrocarbon		to 100%w/v

SECTION 4 – FIRST AID MEASURES

Swallowed:	If swallowed DO NOT induce vomiting. Give a glass of water immediately and induce vomiting. Seek medical advice..
Eye:	Hold eyes open, flood with water for at least 15 minutes. Seek medical advice.
Skin:	Carefully remove contaminated clothing and wash affected skin thoroughly with soap and water.
Inhaled:	Remove affected persons into fresh air and keep warm and at rest.

Advice to Doctor

No specific antidote is available. If poisoning is suspected apply symptomatic therapy.

SECTION 5 – FIRE FIGHTING MEASURES

Specific Hazard

Product is a combustible liquid, (C1)

Fire/Explosion Hazard

Dangerous Decomposition or Combustion Products

Thermal Decomposition This product is non-flammable and non-explosive. Product is combustible. Extinguish warehouse and factory fires using fine-water spray or foam. During a fire this product may release smoke and hazardous decomposition products. When fighting a major fire wear an air-supplied respirator.

Dangerous decomposition or Combustion Products

Thermal decomposition

None

Hazardous decomposition products

Can decompose at high temperatures forming toxic gases.

Extinguishing Media

Use foam, extinguishing powder, carbon dioxide

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Spills and Disposal

Shovel or sweep into drums. Dispose off in an approved land-fill. Wash contaminated surfaces with detergent and water. Do not allow spills to contaminate rivers, dams or other waterways.

SECTION 7 – HANDLING AND STORAGE

Handling

When handling this product, do not eat, drink or smoke.

When mixing this product always wear a PVC or rubber apron, elbow length PVC gloves, face shield or goggles and overalls buttoned at the wrist and neck.

When spraying this product, wear a face shield or goggles

After each day's use, wash gloves, face shield or goggles and overalls.

If product gets on skin, immediately wash area with soap and water.

Storage

Store in the closed, original container in a well-ventilated area as cool as possible out of direct sunlight. Keep from contact with fertilisers and seeds.

SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure Standards:

No exposure standards have been set for the components of this product. The manufacturer of the liquid aromatic hydrocarbon solvent recommends an occupational exposure limit of 100 mg/L of air (8 hour time-weighted average).

Exposure Potential - Swallowing is unlikely under normal conditions of usage. Skin uptake and inhalation of spray mist are possible routes of exposure. This product is diluted with water prior to use as a spray. This diluted form is less toxic by all exposure routes.

Re-entry Period - Do not enter treated areas without protective clothing until spray has dried.

Engineering Controls:

No special requirements. Product is used outdoors.

Personal Protection:

Eyes: Wear goggles.

Clothing: Wear cotton overalls buttoned to the neck and wrist and a washable hat.

Gloves: Wear elbow-length butyl rubber gloves.

Respiratory: Wear a disposable mask if inhalation is likely.

If product gets in eyes, wash it out immediately with water. Wash hands after use. After each day's use, wash gloves and face shield or goggles and contaminated clothing.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Form:	Liquid
Colour:	Clear amber
Odour:	Non-specific
Boiling point (°C):	Not applicable
Vapour Pressure:	Not applicable
Specific gravity:	1.02 at 20°C
Flashpoint:	66- 67°C (closed cup)
Flammability:	Combustible liquid, (C1)
Solubility:	Emulsify with water

SECTION 10 – STABILITY AND REACTIVITY

Chemical Stability

This product is stable under normal storage conditions.

Conditions to Avoid

Avoid extreme heat.

Incompatibilities

Avoid strong oxidising agents.

Hazardous Polymerization

Hazardous polymerization is not possible.

SECTION 11 – TOXICOLOGICAL INFORMATION

Acute Toxicity

This product is slightly hazardous (WHO Hazard Class III)

Swallowed:	Low toxicity Test on rats indicate a low toxicity following single doses of the undiluted product. (LD ₅₀ > 3442 mg/kg)
Dermal absorption:	Low toxicity Test on rats indicate a low toxicity due to skin contact with the undiluted product. (LD ₅₀ > 2000 mg/kg)
Inhaled:	Low toxicity Test on rats indicate a low toxicity due to inhalation of the undiluted product. (LC ₅₀ (4 h) > 5400 mg/m ³)
Irritation:	
Eye:	Moderate irritant
Skin:	Moderate irritant

Sensitisation- (based on results of difenoconazole technical on guinea pigs)

Skin: NOT A SENSITISER

The sensitising potential of the hydrocarbon liquid is not known.

SECTION 12 – ECOLOGICAL INFORMATION

Known Harmful Effects on the Environment

Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

Other Precautions

Environ. Protection

DO NOT contaminate streams, rivers or waterways with the product or used containers.

Persistence / Degradability

Difenoconazole is degraded in soil after use as a seed treatment with a half-life of 35-63 days; primarily due to microbial degradation. Hydrolysis and photolysis are not significant pathways for environmental degradation. Difenoconazole is slowly degraded in water. The aquatic degradation half life is 307-324 days, but the compound is readily adsorbed onto sediment, leading to rapid disappearance in natural water. Difenoconazole has a low to moderate mobility in soil and a moderate bioaccumulation potential.

Difenoconazole is practically non-toxic to birds and bees.

Acute Toxicity - Fish

LC₅₀: 0.81 mg/L (96 h); rainbow trout

LC₅₀: 1.20 mg/L; bluegill

Acute Toxicity - Worms

LD₅₀: >610 mg/L soil; earthworm

Acute Toxicity - Algae

EC₅₀: 1.20 mg/L; algae

SECTION 13 – DISPOSAL CONSIDERATIONS

Disposal: Instructions concerning the disposal of this product and its containers are given on the product label. These should be carefully followed.

SECTION 14 – TRANSPORT INFORMATION

UN Number: None allocated
Proper Shipping Name: None Allocated
ADG Class: None allocated.
Hazchem Code: None allocated.
Packing Group: None allocated.

SECTION 15 – REGULATORY INFORMATION

SUSMP Classification S5
Packaging & Labelling CAUTION
KEEP OUT OF REACH OF CHILDREN
READ SAFETY DIRECTIONS BEFORE OPENING OR USING

SECTION 16 – OTHER INFORMATION

This SDS contains only safety-related information. For other data see product literature.

Acronyms:

ADG Code Australian Code for the Transport of Dangerous Goods by Road and Rail
AICS Australian Inventory of Chemical Substances
CAS number Chemical Abstracts Service Registry Number
Hazchem Number Emergency action code of numbers and letters that provide information to emergency services especially firefighters
IARC International Agency for Research on Cancer
NOHSC National Occupational Health and Safety Commission
SUSMP Standard for the Uniform Scheduling of Medicines & Poisons
UN Number United Nations Number
