

## SAFETY DATA SHEET

### SECTION 1 – IDENTIFICATION OF THE CHEMICAL PRODUCT AND COMPANY

<b>Product Name:</b>	<b>Kenso Agcare Kenzar FS Flowable Seed Dressing Insecticide</b>
<b>Product Type:</b>	Group 3A + 4A Insecticide
<b>Company Name:</b>	Kenso Corporation (M) Sdn. Bhd.
<b>Address:</b>	Level 1, 98 Commercial Road, Teneriffe, 4005 QLD.
<b>Telephone Number:</b>	(07) 3216 1188
<b>Facsimile Number:</b>	(07) 3216 0388
<b>Emergency Telephone Number:</b>	000 (Police or Fire Brigade) <b>13 11 26 (Poisons Information Centre)</b>
<b>Use:</b>	For treatment of Canola and Cereal seed for early plant protection against Aphids, Red Legged Earth Mite and Lucerne Flea.

### SECTION 2 – HAZARDS IDENTIFICATION

**Hazard Classification:** Classified as hazardous according to criteria of Safe Work Australia. Not classified as a Dangerous Good according to the ADG Code.

**GHS Signal Word:** **DANGER**

**Hazard statements:**  
H303: May be harmful if swallowed.  
H317: May cause an allergic skin reaction.  
H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled.

**Prevention:**  
H361: Suspected of damaging fertility or the unborn child.  
H410: Very toxic to aquatic life with long lasting effects.  
P201: Obtain special instruction before use.  
P202: Do not handle until all safety precautions have been read and understood.  
P261: Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray.  
P262: Do not get in eyes, on skin, or on clothing.  
P264: Wash contacted areas thoroughly after handling.  
P270: Do not eat, drink or smoke when using this product.  
P272: Contaminated work clothing should not be allowed out of the workplace.  
P273: Avoid release to the environment.  
P280: Wear protective gloves, protective clothing and eye or face protection.  
P281: Use personal protective equipment as required.  
P285: In case of inadequate ventilation wear respiratory protection.

<b>Response:</b>	P301 + P312: IF SWALLOWED: Call a POISON CENTRE or doctor if you feel unwell. P304 + P 341: IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. P308 + P313: IF exposed or concerned: Get medical advice/attention. P309+P311: If exposed or if you feel unwell: Call a POISON CENTRE or doctor/physician. P321: Specific treatment (see FIRST AID on this label). P330: Rinse mouth. P333 + P313: If skin irritation or rash occurs: Get medical advice/attention. P342 + P311: If experiencing respiratory symptoms: Call a POISON CENTRE or doctor/physician. P362: Take off contaminated clothing and wash before reuse. P363: Wash contaminated clothing before reuse. P370+ P378: In case of fire, use dry chemical, foam or water fog. P391: Collect spillage. Hazardous to the aquatic environment.
<b>Storage:</b>	P403+ P225: Store in a well-ventilated place. Keep cool. P404: Store in a closed container. P405: Store locked up.
<b>Disposal:</b>	P501: Dispose of contents and containers as specified on the registered label.
<b>SUSMP Classification:</b>	S6
<b>ADG Classification:</b>	N/A
<b>UN Number:</b>	N/A

### Emergency Overview

**Physical Description & colour:** Light red to dark red suspension liquid

**Odour:** Faint chemical odour

**Major Health Hazards:** May irritate the eyes. Facial skin contact may cause temporary facial numbness. Avoid contact with eyes.

### SECTION 3 – COMPOSITION/INFORMATION ON INGREDIENTS

Ingredients	CAS number	Proportion
Lambda-cyhalothrin	91465-08-6	3.75 %
Thiamethoxam	153719-23-4	21%
Inert ingredients	secret	To 100 %

### SECTION 4 – FIRST AID MEASURES

**General Information:**

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131 126. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

<b>Inhalation:</b>	Remove to fresh air until recovered. If symptoms persist, seek medical advice.
<b>Skin contact:</b>	Remove contaminated clothing and launder before use. Wash affected areas or skin thoroughly with soap and water. Seek medical advice if irritation develops.
<b>Eye contact:</b>	Immediately irrigate with copious quantity of water for at least 15 minutes. Eyelids to be held open. Seek immediate medical attention.
<b>Ingestion:</b>	If product is swallowed or gets in mouth, do NOT induce vomiting; wash mouth with water and give some water to drink. If symptoms develop, or if in doubt contact a Poisons Information Centre or a doctor.

**Advice to Doctor:**

Treat symptomatically.

**SECTION 5 – FIRE FIGHTING MEASURES**

**Fire/Explosion Hazards**

**Dangerous Decomposition or Combustion Products**

**Thermal Decomposition**

Products contains combustible organic components, combustion will produce dense black smoke containing irritating and toxic gases such as monoxide and carbon dioxide. Exposure to decomposed products may be hazardous to health. Take suitable protective measures.

**Extinguishing Media**

Water fog, foam, carbon dioxide or dry chemical. Do not use solid water stream as it may scatter and spread fire.

**Fire Fighting**

Fire-fighter should wear appropriate protective equipment with self-contained breathing apparatus. DO not allow run-off from fire-fighting to enter water courses. Cool closed container exposed to fire with water spray.

**SECTION 6 – ACCIDENTAL RELEASE MEASURES**

**Spills & Disposal**

Keep bystanders away. Contain spill and absorb with clay, sand, soil or proprietary absorbent (such as vermiculite). Collect spilled material and waste in sealable open-top type containers for disposal.

**Personal Protection**

For appropriate personal protective equipment (PPE), refer Section 8.

**Clean-up Methods – Large Spillages**

Place damaged containers in recovery bins (if available) and return to manufacturer. If large liquid spills occur, attempt to recover as much spilt material from sumps and bunded areas absorbing remaining material into vermiculite or other absorbent.

## SECTION 7 – HANDLING AND STORAGE

### Handling

When handling this product, do not eat, drink or smoke. May irritate the eyes. Facial skin contact may cause temporary facial numbness. Avoid contact with eyes. When preparing the slurry and using the prepared slurry, wear chemical resistant clothing buttoned to the neck, wrist and ankles, washable hat, elbow length chemical resistant gloves. When undertaking bagging sewing activities, wear cotton overalls over normal clothing buttoned to the neck and wrist, half facepiece respirator with dust cartridge or canister. When handling treated seed, wear elbow length chemical resistant gloves, half facepiece respirator with dust cartridge or canister. If product on skin, immediately wash area with soap and water.

### Storage

Store in the closed, original container in a cool, well-ventilated area. Do not store for prolonged periods in direct sunlight.

## SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION

### National Exposure Standards

No exposure standards have been set for this product. ADI for Lambda-cyhalothrin is set at 0.001 mg/kg bw with corresponding NOEL is set at 0.1 mg/kg bw. ADI for Thiamethoxam is set at 0.02 mg/kg bw with corresponding NOEL is set at 2 mg/kg bw.

*\*ADI= Acceptable Daily Intake; NOEL: No Observable Effect Level. Data adopted from Australia ADI List.*

### Engineering Controls

Handle in well ventilated areas, use of local exhaust ventilation controls if airborne mists or vapours are generated.

### Personal Protective Equipment

When preparing the slurry and using the prepared slurry, wear chemical resistant clothing buttoned to the neck, wrist and ankles, washable hat, elbow length chemical resistant gloves. When undertaking bagging sewing activities, wear cotton overalls over normal clothing buttoned to the neck and wrist, half facepiece respirator with dust cartridge or canister. When handling treated seed, wear elbow length chemical resistant gloves, half facepiece respirator with dust cartridge or canister.

### Eye Protection

Eye protection is essential. Wear a face shield or goggles.

### Hygiene Measures

After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves, and contaminated clothing.

## SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

<b>Form:</b>	Liquid
<b>Colour:</b>	Light red to dark red
<b>Odour:</b>	Faint chemical odour
<b>pH:</b>	4.0 – 8.0
<b>Boiling Point (°C):</b>	About 100°C

<b>Flashpoint:</b>	Non flammable
<b>Vapour Pressure:</b>	Not available
<b>Specific gravity:</b>	1.12 ± 0.01 g/cm <sup>3</sup>
<b>Water Solubility:</b>	Dispersible

## SECTION 10 – STABILITY AND REACTIVITY

### Reactivity

Stable under normal conditions.

### Conditions to Avoid

Store in the closed, original container in a cool, well-ventilated area. Do not store for prolonged periods in direct sunlight.

### Incompatibilities

Strong oxidising agents and strong acids.

### Fire Decomposition

Combustion or thermal decomposition may emit toxic and irritant vapors.

### Polymerisation

This product will not undergo polymerisation reactions.

## SECTION 11 – TOXICOLOGICAL INFORMATION

### Toxicity data (of technical)

#### Acute Toxicity – Oral

LD<sub>50</sub> (rat): 56-79 mg/kg for lambda-cyhalothrin; 1563 mg/kg for thiamethoxam

#### Acute Toxicity - Dermal

LD<sub>50</sub> (rat): 632-696 mg/kg for lambda-cyhalothrin; >2000 mg/kg for thiamethoxam

#### Acute Toxicity – Inhalation:

LC<sub>50</sub> (rats) (4hr): 0.06 mg/L air (total particulate); >3720 mg/m<sup>3</sup> for thiamethoxam

**Skin irritation:** NON IRRITANT for lambda-cyhalothrin and thiamethoxam

**Eye irritation:** MILD IRRITANT for lambda-cyhalothrin, NON IRRITANT for thiamethoxam

**Sensitization:** NON SENSITISER for lambda-cyhalothrin and thiamethoxam

## Potential Health Effects

### Health Effects

Product may irritate the eyes. Facial skin contact may cause temporary facial numbness.

#### Acute:

**Inhalation:** Product may cause allergy or asthma symptoms or breathing difficulties if inhaled. Move victims to fresh air and if breathing is irregular or stopped, administer artificial respiration. Seek medical attention immediately.

**Skin contact:** Product if contacted on face will cause temporary facial numbness. This product causes skin contact paraesthesia effects (itching,

tingling, burning or numbness) yet unlikely to cause anything more than mild transient comfort.

**Eye contact:** Product is moderate eye irritant. Avoid contact with eyes. Symptoms like stinging, reddening of eyes and watering which may become copious may developed. Symptom disappear when exposure stopped and first aid measure taken.

**Ingestion:** This product may be harmful if swallowed. If swallowed, seek medical advice immediately and show the product container or label. Do not induce vomiting. Symptoms should disappear once exposure has ceased.

### Reproductive Toxicity

No evidence of reproductive effects was obtained for thiamethoxam technical. Minor reproductive and developmental effects were noted in animal studies for lambda-cyhalothrin technical.

### Mutagenicity

Data indicates no mutagenic effects for both thiamethoxam and lambda-cyhalothrin.

### Carcinogenicity

No carcinogenicity potential was noticed in rats for thiamethoxam technical. Liver tumors were observed in carcinogenicity study on mice but occurred at dose levels that interfered with normal liver function and is considered to be related to sustained regenerative cell proliferation related to cell death supported by a phenobarbital-like enzyme induction. Special studies indicated that thiamethoxam acts as an inducer of metabolizing liver enzymes in the mouse. This effect had a clear threshold level and was of a type specific to mice and is not considered relevant to humans.

No carcinogenic effects is observed for lambda-cyhalothrin technical.

### Other Information

The Australian Acceptable Daily Intake (ADI) for Lambda-cyhalothrin is set at 0.001 mg/kg bw with corresponding NOEL is set at 0.1 mg/kg bw. ADI for Thiamethoxam is set at 0.02 mg/kg bw with corresponding NOEL is set at 2 mg/kg bw.

## SECTION 12 – ECOLOGICAL INFORMATION

Very toxic to aquatic life with long lasting effects.

### Ecotoxicity data (of technical)

#### Acute Toxicity – Bird

LD<sub>50</sub> mallard duck: >3950 mg/kg for lambda-cyhalothrin; 576 mg/kg for thiamethoxam

#### Acute Toxicity – Fish

LC<sub>50</sub> trout (96 hrs): 0.36 µg/L for lambda-cyhalothrin; >100 mg/L for thiamethoxam

#### Acute Toxicity – Crustaceans

Daphnia EC<sub>50</sub> (48 hrs): 0.26 µg/L for lambda-cyhalothrin; >100 mg/L for thiamethoxam

#### Acute Toxicity – Other organisms

Algae: EC<sub>50</sub> *Selenastrum capricornutum* (96 hrs): >1000 µg/L for lambda-cyhalothrin.

Algae: EC<sub>50</sub> Green algae (96 hrs): >100 mg/L for thiamethoxam

Earthworms: EC<sub>50</sub> (14 days): >1000 mg/kg soil for lambda-cyhalothrin; >1000 mg/kg soil for thiamethoxam

Bees: LD<sub>50</sub> (contact): 38 ng/bee for lambda-cyhalothrin; 0.024 µg/bee for thiamethoxam.

### ENVIRONMENTAL FATE

For lambda-cyhalothrin, it degraded rapidly in soil. It is immobile in soil, absorbed strongly to soil and sediment organic matter, K<sub>oc</sub> 330 000. Potential for leaching and its degradation products through soil is negligible. Rapid dissipation from water in aquatic systems.

Thiamethoxam has medium mobility in soil. Photolysis accelerates degradation in soil. Stables in water under acidic condition and hydrolysed under alkaline conditions. No bioaccumulation, no significant volatilization and efficiently degraded in air by photochemical oxidative degradation.

### SECTION 13 – DISPOSAL CONSIDERATIONS

**Disposal:** Instructions concerning the disposal of this product and its containers are given on the product label. These should be carefully followed.

### SECTION 14 – TRANSPORT INFORMATION

<b>Transport</b>	Considered non dangerous for road and rail transport (in packaging) by the Australian Code for the Transport of Dangerous Goods by Road and Rail. Ref: ADG7; SP No. AU01.
<b>U.N. Number</b>	3082
<b>Proper Shipping Name:</b>	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.(contains Lambda-cyhalothrin and Thiamethoxam)
<b>ADG Class</b>	9
<b>Hazchem Code</b>	2X
<b>Packing Group</b>	III

### SECTION 15 – REGULATORY INFORMATION

<b>SUSMP Classification</b>	S6
<b>Packaging &amp; Labelling</b>	POISON KEEP OUT OF REACH OF CHILDREN READ SAFETY DIRECTIONS BEFORE OPENING OR USING

### SECTION 16 – OTHER INFORMATION

**This SDS contains only safety-related information. For other data see product literature.**

**Acronyms:**

<b>ADG Code</b>	Australian Code for the Transport of Dangerous Goods by Road and Rail
<b>CAS number</b>	Chemical Abstracts Service Registry Number
<b>Hazchem Number</b>	Emergency action code of numbers and letters that provide information to emergency services especially firefighters
<b>IARC</b>	International Agency for Research on Cancer
<b>NOHSC</b>	National Occupational Health and Safety Commission
